Matn/text

1. Having to deal with the side effects of allopathic medicine is a feat that is so spiritually taxing but well worth it. I have noticed that the best way to deal with the side effects of Bisperdal Consta 25mg (and subsequently any side effect of any allopathic drug) is to completely and full heartedly turn back to the Creator in worship and trust. To leave off the creation and turn all your longing to the Creator, and beg Him to give you a full hearing that leaves no illness.
